1	One of our very humble students was encouraged to go in 2016. She was not confident that she could manage the trip. We had a report back that she was an outstanding student during the voyage and in 2017 she has been one of our school prefects. She has been totally brilliant as a young leader. She has just won a big scholarship to go on to University next year.	11/2/2017 2:30 PM
2	Several girls have gone on to show leadership in the senior school - prefects etc	11/2/2017 8:43 AM
3	Grace xxx recently was over the moon about her trip and clearly had a wonderful experience. Also Sxx Txx had a life-changing experience.	11/2/2017 5:43 AM
4	Generally putting them in a situation where they are way out of their comfort zones	11/1/2017 8:39 PM
5	I have had kids who were really scared to go because they did not know anybody and have come back so much more confident talking to strangers.	10/16/2017 9:17 AM
6	Not without naming students.	10/16/2017 8:51 AM
7	David xxx went on a journey this year. Afterwards he began to take his place within his Whanau as a leader. The experience gave him confidence to get up and speak at assembly and begin to motivate his peers to do the same. Another of this year's Year 10's came back determined to lead a much more interesting life rather than remain on the couch. She suffers from juvenile Arthritis but is now motivated to keep fit and work toward getting her drivers' licence.	10/15/2017 3:20 PM
8	I have found that they have become more independent	10/12/2017 11:12 AM
9	Students have returned and come out of their shells talking more and participating more in activities	10/9/2017 12:31 PM
10	Confidence of one girl to go was not there. She was encouraged to go and by herself as well - tears and all at departure by all accounts according to her mother. She loved it when she got going and was left to it! Many students esp. our student this can be their first experience away from home and family so it is huge for them.	10/9/2017 11:55 AM
11	We are very happy that our students jump at the opportunity to participate. All senior students return back to share their experience with the rest of the kura which in turn leaves those listening 'wanting' and waiting. Excellent experiences shared and had by all.	10/7/2017 6:53 PM
12	I have only just been involved in the sending of students, but have seen the benefits over many years if students being given these opportunities, a break away from life and into new challenges etc	10/7/2017 5:45 PM
13	Kids get to learn about the boating and the ocean.	10/6/2017 5:29 PM
14	One boy who had lost his mother to cancer and who was not coping well, thoroughly appreciated the voyage, the mentorship, the guidance, the opportunity for safe , exciting adventure. Always asks if he can go again. One boy dislocated his shoulder while on the voyage he was returned to shore , the paramedic slipped his shoulder back into place and he continued on the voyage, he assured his grandparents that he wanted to continue. This young man is a leader and he LOVED the voyage.	10/6/2017 10:59 AM
15	Many of our students come back with a much more positive attitude and a stronger belief in themselves and their ability to achieve their goals	10/5/2017 7:10 PM
16	Haven't any as yet	10/5/2017 6:19 PM

10	A growth in personal confidence and therefore a willingness to take on challenges is the most widespread significant effect. Once one person within a particular group goes on a journey there are always others who want to share the experience. This year having the Chilltech sponsorship lead to six more students going. 20	Self believe and self confidence.	10/5/2017 6:19 PM

8	Families in Northland are generally just getting by so even a small contribution is difficult. However I am convinced that students should work toward at least part of the cost. Students all appreciate the wonderful staff. I don't think I would change anything except encourage others to sponsor a student.	10/15/2017 3:20 PM
9	I think it runs very well.	10/12/2017 11:12 AM
10	No	10/9/2017 12:31 PM
11	Sounds like the program is solid from what my students tell me. I am sure you adjust to the students that you have each time and that is a good thing.	10/9/2017 11:55 AM
12	Our students relate the experience to aspects of studies. For example, being a coastal community and school where students are predominately raised by the seashore, students are able to write of experiences had by their ancestors where they appreciate the knowledge gained to better understand how their ancestors may have navigated and handled themselves in past years. Knowledge and understanding which is real to them and especially as it values prior knowledge.	10/7/2017 6:53 PM
13	No	10/7/2017 5:45 PM
14	Great opportunity for our kids up north. Beautiful boat and great organisation that work with what works for us and our kids.	10/6/2017 5:29 PM
15	The opportunity for students who have had real success due to being part of the voyage, to go again to verify for themselves the value of the experience	10/6/2017 10:59 AM
